Applications	ELISA, SPARCL, Western blot
Immunogen	Rainbow trout IgM
Manufactured	USA

Comments: Western blots indicate that IGM-23-2E7 recognizes a carbohydrate chain on Rainbow trout IgM heavy chain. It can be used in ELISA and SPARCL™ as both capture and detection antibody. It also pairs with monoclonal IGM-23-12B9 and with the Warr's 1.14 antibody in SPARCL™. Purification was performed from serum-free hybridoma supernatant using gel-filtration chromatography at neutral pH.
